DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Upon review of the application filed on 12/29/2003 and the prior art of record no ammunition magazine exists comprising a magazine body with sidewalls, a feed end for interfacing with a given weapon, a floor end opposite the feed end and a removable floor plate covering said floor end, the part of the magazine between the floor feed end being defined as below the level plate; and, a handle, said handle further comprising a grasping portion and an anchoring portion, the anchoring portion be- plate and the of the flooring fastened on at least one sidewall of the magazine body, thereby providing an integral extraction handle, wherein the presence of the handle does not interfere with the removal of the floor plate.

This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Phillips (6,807,764) teaches a magazine body with sidewalls, a feed end for interfacing with a given weapon, a floor end opposite the feed end and a removable floor plate covering said floor end, and, a handle, wherein the presence of the handle does not interfere with the removal of the floor plate (fig. 5).
- Blackamore (5,309,660) teaches a magazine body (14) with sidewalls, a feed end for interfacing with a given weapon, a floor end opposite the feed end and a removable floor plate covering said floor end, and, a handle, wherein the presence of the handle does not interfere with the removal of the floor plate (fig. 8).
